May there be tranquility on earth, on water, in fire, in the wind, in the sky, in the sun, on the moon, on our planet, in all living beings, in the body, in the mind and in the spirit. May that tranquility be everywhere, and in everyone.

# krishna

"I am Vishnu, the maintainer of this Universe; Brahma, the creator, and Indra, the king of all the gods. I am the origin and end of everything in this creation.

It is me who has created the conglomeration of five elements  
- earth, water, fire, air and space.

The objects born out of them-sound, touch, form and heat, taste and smell-were created by me. I am the destroyer of these objects too, when the individual has begun revelling in a life of adharma or unrighteousness. I am Achyuta, the infallible one."

Shri Krishna identifies himself with the supreme self and speaks in Uditanka in the Anu Gita Parva of Mahabharata's Ashvamedha Parva.

## The Land of Krishna -Vrindavan

Vrindavan has solely witnessed the Krishna Leela, and thus is called the land of the supreme Lord Krishna who is the expositor of the sacred Hindu epic Shreemadbhagvata.

Anantam.

The endless union of  
all five senses with  
Lord Krishna.

A modern, dynamic, self-sustained and futuristic social lifestyle model based on the premise of environment-friendliness and smart living at Vrindavan on NH2.

A space that aspires for the comfort and sophistication of international standards of living with state of the art infrastructure facilities.

An urbane setup for the modern individuals and their families looking for a safe, sustainable and tranquil second home.

Anantam.

Where you live in the heart of divinity  
and within the best infrastructure.

Poised to be new Vrindavan, the project is being developed on NH-2 connecting Delhi, Mathura and Agra.

Anantam is accessible from the NH-2 from the south-west side and Vrindavan Road (Bhaktivadanta Marg) on the south / south east side.

The project site is located on NH- 2 connecting Delhi, Mlathura and Agra:

- 155 km from New Delhi
- 125 km from Greater Noida
- 120 km from Gurgaon
- 8.5 km from Yamuna Expressway
- 55 km from Agra
- 6 km from Mathura
- 12.8 km from New Bus station, Mathura
- 14.6 km from Railway station, Mathura

One of the recent upcoming landmark development adjacent to Anantam is Chandrodaya Mandir stated to be the world's tallest temple.

Away from the city's chaos and enveloped in a serene cocoon of divinity and harmony with nature, Anantam will also emerge to be an alternative residence for the devotees of Lord Krishna as well as a second home for senior citizens who want to spend their time in holy Vrindavan.

Distance from temples:

- Barsana Shri Radha Rani Temple - 37.3 km
- Chandrodaya Mandir - 7.9 km
- Prem Mandir - 11.5 km
- ISKCON Temple - 8.3 km
- Garud Govind Temple - 2.8 km
- Madan Mohan Mandir - 9.9 km
- Shri Rangrath Mandir - 11.8 km
- Maa Vishno Devi Dham - 3.4 km
- Priya Kant Ju Mandir - 4 km
- Bankey Bihari mandir - 10 km

Enter the world of divinity.  
Enter Anantam – where you live  
in close communion with the Lord.

A modern, dynamic and self-sustained lifestyle model based on the premise of the largest expandable integrated township on NH2, in Vrindavan.

Bhoomi mangalam

Earth

- Sustainable and viable world class township model
- Plotted developments
- Housing clusters
- Large scale futuristic residential model with mixed use development

Udaka mangalam

Water

- Benchmarked to international standards of living
- Landmark open space environment with waterbodies
- Destination for the rejuvenation of mind, body and soul in harmony with nature
- Attempt to preserve surface water and hydrologic cycle
- Water features being provided to augment the existing fauna by providing additional water bodies

Agni mangalam

Fire

- Energy-rekindling infrastructure
- Provision of spaces planned for health and fitness facilities across age groups
- Sports and recreation options
- Planned open spaces with child-friendly and health infrastructure

Vayu mangalam

Air

- Huge interlinking green expanses with 60% area open to the sky
- Energy-efficient green practices
- Pollution free environment
- Eco-friendly features to promote sustainable living

Gagana mangalam

Sky

- Smart city with contemporary conveniences
- World class educational, commercial, leisure and health amenities
- Disaster management principles
- Common infrastructure to be provided for housing

The earth has various aspects of beauty as well as variety in its sound. Its pitch is on the surface, its form is crescent-like, and its color is yellow. The sound of earth is dim and dull, and produces a thrill, activity and movement in the body. All instruments of wire and gut, and as well as instruments of percussion, such as the drum, cymbals etc. represent the sound of the earth.

Anantam.

Where you are as rooted in earthy tradition as you are connected to modern conveniences.

An economically balanced, eco-friendly, sustainable and smart city.

Anantam is a space that aspires for the comfort and sophistication of international standards of living with state-of-the-art infrastructure. In other words, a viable and unique landmark open space environment within an integrated township.

The design philosophy and built environment is such that each and every element will be a part of the city such as the spiritual centres, public spaces and housing typologies shall have the influence of modern architecture forms without hindering the cultural image of Braj Sanskriti.

Six major types of plotted residential units with plot areas ranging from 120 sq yards to 500 sq yards so as to accommodate the needs of different sections of the housing prototype.

#### Independent Plots and Group Housing Plots

Townhouses  
Villas

Single family  
semi-detached house

Independent  
floor

Mid-rise  
apartments

High-rise  
apartments

पर्वतरेखलानुवाहल

The sound of water is deep, its form is serpent-like, its color is green, and it is best heard in the roaring of the sea. The sound of running water, of mountain rills, the drizzling and patterning of rain, all have a smooth and lively effect, and a tendency to produce imagination, fancy, dream, affection and emotion.

Anantam.

Where green and water coexist with land and sky.

The city level green and water bodies have been designed and integrated very carefully in keeping with the vision and concept of the city.

Large area of open land and water features are being provided to supplement and augment the existing fauna by providing additional water bodies. Large tracts of land are being preserved for open space.

The Landscape consultants will work with natural contours and limit the removal of existing vegetation. Use of material such as porous pavements will also help to recharge ground water.

Water quality would be maintained by the use of native species, landscape to minimize need for pesticide and fertilizers and avoiding the discharge of waste water to the existing water bodies. Earthwork which creates erosion and sediment problems will be avoided largely.

The open spaces comprise of forests known as Vans, Upvans and orchards

Wide green belt along the National Highway

Implementation of rain water harvesting system

Natural ecosystems will be preserved and enhanced

## बहुमोलबहुबाल

The sound of fire is high pitched, its form is cutless, and its color red. It is heard in the falling of the thunder bolt and in a volcanic eruption, in the sound of the fire when blazing, in the noise of crackers, rifles, guns and canons. All these have a tendency to produce fear.

Anantam.

Where the fire of energy is rekindled by the multifarious health and fitness infrastructure on offer.

Recreational facilities like provision for theme park, swimming pools, recreational clubs with multi-gyms, SPA, indoor games, etc, shall also be provided at sector level. The entire township is connected through green linkages that act as lungs for the city.

Amphitheatre | Cultural centre | Recreation grounds | Sports centers provided from neighborhood level to zonal levels

Outdoor sports facilities

Tennis Court

Basketball / Ball court

Skating ring

Cricket / football fields

Yoga / meditation

Open gym areas

Walking / Jogging tracks

## वयुलगलम

The sound of air is wavering; its form is zigzag and its color blue. Its voice is heard in storms, when the wind blows, and in the whisper of the morning breeze. The sound of air finds expression in all wind instruments made of wood, brass, and bamboo. It has a tendency to kindle the fire of the heart; Krishna's flute is the classical legendary example.

Anantam.

Where you also acquire a portion of the sky and free air when you move into your new home in Vrindavan.

The vast green cover, waterbodies with energy-efficient green practices has been intelligently designed to deliver a pollution-free, sustained city with premier environment for its residents and promote a healthy lifestyle.

Eco-friendly practices will be encouraged to promote sustainable living such as friendly modes of transportation and balancing the demands of pedestrians, cyclists and vehicles.

Use of renewable energy sources

Minimal disturbance to landscape and sustainable site conditions

Rain water harvesting and recycling water replenishing systems

Energy efficient and eco-friendly equipment

Non-polluting and renewable energy

The sound of ether is self-contained, and it holds all forms and colors. Its instrument is the human body, because it can be audible only through it. The body can become its proper instrument when the space within it is opened, when all the tubes and veins in it are free. Then the sound which exists externally in space becomes manifest inwardly also.

Anantam.

Where you live smart surrounded by a host of contemporary amenities and facilities.  
And you live in peace and oneness with The Lord.

Anantam has all the contemporary features that a smart city would comprise to create an environment of life, work and play. It shall have a unique synthesis of modern infrastructure facilities within a secured environment. In short, world-class facilities across health and education, leisure and commercial and employment sectors in order to develop a self-sustainable and integrated city.

Anantam.  
Where convenience extends to not only your living but also your life.

#### Medical Facilities

- Spaces planned for health facilities
- Satsang / yoga and community center

#### Security

- Gated community with boundary walls in all site, CCTV camera surveillance on roads, Main Security Gate

#### Other facilities

- Bus Shuttle services from Anantam to Temples
- Energy-efficient Solar powered LED street lights
- The city offers an efficient and effective drainage, sewage and waste disposal system
- Anantam will promote and shall have rain water harvesting, recycling water replenishing systems
- Spaces planned for amenities such as post office, ATMs, Banks, Fire stations, Police stations/ chowkies etc. have been provided

#### Education

- Spaces planned for early childhood to high-schools

#### Commercial & Industrial

- Spaces planned for local shopping
- Space allocated for office building
- Space allocated for non-polluting industries

#### Facilitation for construction

- Facilitation cell to assist designing and construction of houses

- \* North Square Mall Delhi
- \* Triton Mall Jaipur

In the introduction to the Bhagavad-gita, it is said that Vrindavan on earth is a replica of Krishna's eternal residence in the spiritual world.

Anantam is only a manifestation of all that prevails in Krishna's World.

Come, be a part of divine living..
